

## TEARS WERE IN EVIDENCE TODAY

When Prof. Graham Made Address at Dedication Services

AN EXCELLENT PROGRAM

Dr. V. W. Tevis Delivered the Principal Oration of the Day

The new school buildings recently built in this city were dedicated this afternoon with impressive ceremonies throughout the entire program. The exercises were held in the large auditorium of the new Graham school building and were witnessed by a large crowd, which, however, was composed mostly of ladies.

The buildings, were open all day for the inspection of visitors and patrons poured in and out all day admiring the new buildings which are among the most modern in this State.

The platform on which the speakers with the present school board and Contractor Winship sat, was artistically decorated and draped with the large American flags recently presented to the schools by the Patriotic Order Sons of America.

The exercises were opened by the singing of "America" by the entire audience and an invocation was then offered by Rev. J. F. Cowling, pastor of the First Presbyterian church, followed by a beautiful selection by the Girls' Glee club.

Prof. David Graham, for whom the school was named was on the program for an address and when he arose to speak the audience were so impressed by his appearance that many were moved to tears before he had even begun. Mr. Graham declared that the applause which he received scared him, and then after a moment's silence he told them of his early experiences in the old log school house which was so much different from the modern building in which he was speaking. The old professor brought smiles and even laughs through the tear dimmed eyes of his auditors by relating the first whipping that he received in school for tripping a big girl, who made fun of him.

Mr. Graham related his life at the entrance of college, which was full of humorous and pathetic incidents. Many laughs were brought out when the professor told how the pupils were going to keep him out when he had but twenty-five cents in his pockets after teaching three months at fifty cents per day.

A clipping from a newspaper which related the dedication of the old school building in 1869 was read which was very interesting.

In concluding his speech Mr. Graham said in part: "If I had my life to live over again I would do just as I have done; I would go into the school room with the children I love so well and teach until I died." The old veteran of the school room then turned to the school board and thanked them for placing his name over the building and the strongest men gave way and tears flooded their cheeks when he asked that he might be permitted to come to the schools, which he loved, and watch the children work occasionally, with a promise that he would not disturb them.

At the conclusion of this most impressive address Miss Ida Spurrier sang a beautiful solo. Mr. Holden, secretary of the city school board, gave a report of the board after which Dr. V. W. Tevis gave one of the most interesting addresses ever given in this city, which was full of instruction and interest throughout. Prof. Andrew Graham sang a beautiful solo and the benediction closed the ceremonies of the day.

Since the first day of the year 7,300 new families have taken up their abode in New York city.

The primitive Methodists of England have 1,169 ministers, who care for 211,648 members.

## Tried to Make Expenses While on Their Outing.

Dr. F. M. Sparks and Dr. F. R. McClanahan bagged a deal of game yesterday on a hunting trip on the Patton farm, south of this city—and it wasn't a good day for hunting either.

In addition to five squirrels which fell under the accurate sight of the "painless extractors," they killed five coons. The dentists killed them, thinking they could sell the pelts and make gun powder expenses, but afterwards learned that coon hides are "out of season." One of the coons was the largest ever killed in Rush county.

## ARRESTED ON A FOWL CHARGE

John McFeeley Now in the Bastile Charged With Stealing Chickens

THE WHITE STRING STORY

McFeeley Recently Figured in Another "Cochrel" Case as the Wronged Father

John McFeeley was arrested this morning and lodged in jail by City Marshal Price on a charge of chicken stealing.

McFeeley is the man who has figured as the wronged father in the case with Lon Cochrel on several occasions in the past few months, claiming Cochrel had stolen his daughter, and his daughter had driven him to drink. And now if they prove that he is guilty of stealing chickens it will establish the fact that he is very fond of "cochrel."

McFeeley was arrested at the instigation of Jesse Bennett, living south of this city. Bennett missed some chickens and immediately made an investigation. At the poultry house, he learned that McFeeley had sold some chickens which bore the peculiar mark of Bennett's chickens—that of a white string tied around one of their legs. McFeeley denies the charge.

## IN GOOD HEALTH DESPITE OLD AGE

Mrs. Elizabeth Stanley Aged Ninety-Three, Visits Her Son

Mrs. Elizabeth Stanley, widow of the late Preston Stanley, who lives about a mile north of Arlington, will be ninety-four years old in a few days. Tuesday of this week she visited her son Nathan at his home and enjoyed the celebration of Nathan's seventieth birthday. Mrs. Stanley is a remarkably well preserved old lady and is most interesting in her reminiscences. Aside from the fact that she is nearly blind, her health is quite good. She lives at the homestead with her son, William.

Will Not Get Drunk Until Next Christmas.

"Jack" Crush, who was arrested last week for public intoxication, and who has been in jail since was allowed to return to his home, south of this city today on his promise to Mayor Cowling that he would not come to this city to get drunk until next Christmas. At that time he promises to "light up like a cathedral," and play Santa Claus for the children.

—Miss Lillian Young, of West Seventh street, and her guest, Miss Minnie Joliff, are visiting at the home of Miss Clara Cupp, in Connersville, and attending the fair.

## NOW HELD ON A MURDER CHARGE

Alleged Mean Man Now Believed to be of Naturally Mean Disposition

CONSCIOUS OF HIS CRIME

And Shows no Remorse and Threatens the Life of Others in the Jail

Harry Robinson, the alleged insane man who so brutally took the life of Austin Ford in the Connersville jail Tuesday, was arraigned yesterday on a charge of murder. Some doubt that the man is insane and say he is naturally of a mean disposition, and feigning insanity.

Yesterday he attacked the officers but when they responded with their maces, hitting the prisoner over the head, he cowed saying: "Alright boys, I've got enough, I'll be good."

When brought before Mayor Barrows, and the charge of murder was read to him, he said: "Not guilty."

Several instances are cited to show that Robinson knew what he was doing when he killed Ford and that he is now conscious of his crime.

It is told of him that a couple of years ago he came home from a visit to friends, in a neighboring city, where he had been accompanied by a little daughter. Notwithstanding that the child was ill on the train home from the C. H. & D. station, nearly a mile. As they reached the house the child fell, fainting, through the door. A physician was later called, and the little girl was pronounced fatally ill, and died within a day or two.

## FORMER CITIZEN DEAD IN THE WEST

Henry Stephens, Formerly a Photographer Here, Succumbs in California

The sad intelligence reached this city this morning that Henry S. Stephens, of Pasadena, California, died at one o'clock last night of typhoid fever. He had been ailing for some time, but for the last week his illness took a serious turn, and his family was not alarmed until then.

Mr. Stephens was formerly the well-known photographer in this city, and several years ago removed to California on account of the health of Mrs. Stephens. He located in Pasadena, where he established himself a pleasant home for his family, and again went into the photograph business.

Henry Stephens was born in Brookville, Ind., November 23d, 1851, his father owning the paper mill there at that time. At the age of fifteen he removed to Richmond, Ind., where in 1871 he learned the photograph business. He located in Rushville in 1874 and opened a gallery on Main street in a frame building that stood where now Wyatt's and Lytle's places of business are. In 1879 he removed his gallery to the room over T. W. Becker's cigar store, where he conducted a successful and prosperous business until his removal to California.

Mr. Stephens was a photographer of rare and exceptional ability and the work he turned out was of the finest and most artistic.

Mr. Stephens was married to Miss Alice Hodgen, of Richmond on March 25th, 1875, and two sons, Fred and Walter, were born to this union.

He was a citizen of rare character, and a true Christian gentleman of the type we too seldom find nowadays. His many friends in this county were staunch ones and will sadly mourn his loss.

## Premiums For Educational Exhibits

The following awards were made in the Educational department at the Rush county fair:

Walker township, carried off the most prizes. Rushville stood second. These were followed close by Anderson, Washington and Ripley township. Posey, Union, Jackson and Orange followed these closely in the order named.

Walker township was first in showing school buildings.

For best graded school as shown by the premiums awarded Edgar Stiers was first and Una Greenwood was second. Following these very closely was Margaret Morton, the Milroy high school and Enalie Mull.

For best ungraded school Reba Mahin was first and Alma Braden second.

For best showing of busy work, Una Greenwood was first and Lena Brookbank second.

For best collection of woods, Roscoe Wagoner was first and Lon Lewis' school second.

For best collection of seeds, Flora Kney was first and Lon Lewis' school second.

For best collection of leaves, Dicia Trobraugh was first and Una Greenwood second. For best collection of birds' nests, Murlie Mohler was first and Walnut Ridge second.

For best showing of manual training Murlie Mohler's school was first and Chester Ridout second.

For best outline by teacher on Physiology Bertha Bunker was first and James Shedy second.

For best kept teacher's register Bertha Bunker was first, and Clara Herbst second.

## Came Near Being Movin' Day.

The Republican Company nearly completed moving today. And everything was to be moved instantly and without charges—save a charge of explosive.

Miss Nola Ash, one of the employees, laid a box of matches on a table near a large tank of benzine, and in some inexplicable manner the matches ignited, as she laid them down. Another employee saw the smoke and smothered flame emitting from the match box and shouted to the young lady. Coolly and pluckily she grabbed the burning matches, opened a window and threw them outside—so now our moving process will go on as before.

## TINSLEY ESCAPES A HERESY TRIAL

Was Charged With Having Departed From Orthodox Methodist Teachings

A dispatch from Toledo, Ohio, says that the Rev. C. W. Tinsley, formerly of Terre Haute, and one of the most prominent Methodist ministers in Ohio, will escape a heresy trial before the North Ohio Conference. The Rev. Mr. Tinsley had been charged with departing from Methodist doctrine in his sermons, but ministers attending the conference are not giving the matter serious attention.

Rev. Tinsley formerly resided in Rushville, and for several years was pastor of St. Paul's M.E. church here. Recently he delivered a lecture here on "Higher Criticism" under the auspices of the Wednesday Evening club, and it was pronounced by all fortunate enough to hear it an intellectual treat.

## HON. F. T. ROOTS BEGINS A "GUM SHOE" CAMPAIGN

Hon. Francis T. Roots, of Connersville, has begun a "gum shoe" campaign of some sort. Yesterday he presented all the fire laddies in Connersville a pair of rubber boots.

The funeral services of Mrs. Mary Ann Lewis, who died suddenly at her home in Andersonville Tuesday afternoon, were held this afternoon at that place.

The funeral services of Mrs. Flora Price, wife of Jehu Price, who died at her home in Arlington, Tuesday night, will be held tomorrow at the late residence. Burial will occur at the Hannegan cemetery.

—Mrs. Libby Carr and mother, Mrs. Anne Carr, who have been the guests of friends and relatives in this city, returned to their homes in Chicago today.

AND ANOTHER THING—

If Present Plans do not fail, the Republican Company Will Occupy Their Magnificent New Quarters Next Monday. No Daily Paper Will be Published on Saturday, but Everything Will be in Running Order on the Following Monday. We are Going to Tell You More about our New Building, New Machinery, Plans, etc., Later On, Going to Invite You "Over" to Make an Inspection. Remember—No Paper Saturday. THE REPUBLICAN CO.

## STAND AGAINST DIVORCE EVIL

Judge Jackson Will Grant no Decrees on Flimsy Evidence

HAS A STRONG OPINION

Henry Circuit Judge Will Adhere to Law and Grounds Must be Proven

Judge Jackson, of Henry county, proposes to go into the divorce question with a vim and it is likely that fewer divorces will be in order, says the New Castle Courier. There are only seven charges, which if satisfactorily proven will constitute a reasonable cause for a decree. They are adultery, impotency at the time of marriage, abandonment after two years, cruel and inhuman treatment, habitual intoxication, failure to provide, and conviction of an infamous crime.

In many courts it is no trouble at all to secure a divorce and as a result helpless little children are thrown upon the care of the mother and the public. A judge weighing all matters equally, will hesitate long before granting a divorce, if he is working in the interest of humanity.

The records of the State will show that the most common complaint is cruel and inhuman treatment. This charge is one of the most flimsy that is ever offered and hereafter the charges will have to be sustained in the Henry circuit court, if a decree is granted on this charge. In most courts all that is necessary is to sing one stanza, the cruel and inhuman treatment chorus and the divorce is granted forthwith.

Judge Jackson has decided opinions on the divorce evil and states that he will do all in his power to keep families united and that all charges must be sustained before he will grant one. His brief experience as judge will demonstrate this fact to the entire satisfaction of everyone. One divorce was held up recently and it was found that both perjury and forgery had been committed with the view to fraudulently obtaining a decree, but the plot was "nipped in the bud."

Minister's Son Picked For a Pickpocket Here.

Owen Kuhn, a reporter on the Richmond Palladium who was in this city last week "is" having an eventful time of it, in the columns of the neighboring papers. In addition to an interview with Congressman Watson, which the "head writer," put in a bad light, creating the wrong impression and construction on the body of the article, young Kuhn now figures in an arrest. Several papers have published such a report. The Greenfield Star said in yesterday's edition: "Owen Kuhn, son of Rev. T. H. Kuhn, a former pastor of the Christian church in this city, was the victim of a somewhat embarrassing circumstance at Rushville during the progress of the fair there last week. Kuhn in company with another young man had gone to the fair and met a couple of young ladies. Officers were looking for pickpockets and Kuhn and companion answered the description. Kuhn took to his heels, but his companion showed fight and gave the officers a hard battle, but was finally taken to police headquarters and Kuhn appeared later. It proved that they were not the men wanted, but the affair created no little excitement and caused the young men much unfavorable notoriety."

An eminent Spanish scientist has made the recent discovery that the sunflower yields a splendid febrifuge that can be used as a substitute for quinine. Accordingly, the sunflower should not only, by its growing, exert great fever-dispelling effect, but also yield a product which is used advantageously in all fevers. Roller skates were invented by Plympton in 1833.

RUSHVILLE, INDIANA, SEPTEMBER 5, 1907.

The result of a postal card vote among publishers or others depends a good deal upon the particular publishers of persons to whom they are sent.

The popularity of President Roosevelt is perhaps not due so much to a superabundance of human nature as his frank way of displaying it.

If "Uncle Joe" does quit smoking and then lives to be a hundred years old, as everybody hopes he may, then the theorists will not be able to attribute his longevity to the use of the weed.

After the government gets through with its great irrigation work, it might turn its attention to the swamps. It is stated that the drainage of swamps would add 8,000,000 acres of rich land to the agricultural sources of the United States.

The moving picture machine is nothing more than a scientific development of the ancient toy called the zoetrope. Every town and city in the United States has a liberal quota of moving picture shows. Within a year 23 of them have been licensed in New York City.

The Norfolk Landmark says that Mr. Bryan puts his government ownership in pickle for a time, but the country makes a wry face in anticipation. But it occurs to us that the wry face—the wryest of all—was made by the man himself when he found that he had sprung this proposition a century or two too soon.

Col. Watterson in a recent address declared a protest against "the religion that sours the sugar and waters the milk before going to prayers." If the valiant Kentuckian will only come over into Indiana where the people are abreast of the times, he will find that Republican legislation is rapidly taking the pith out of that kind of religion. Sanding the sugar and watering the milk has come to be a dangerous business in Indiana.

Ex-Attorney General Charles W. Miller, of Goshen, has made formal announcement of his candidacy for the Republican nomination of governor of Indiana. Mr. Miller is 44 years old, and was born in Floyd county. He began the practice of law in Hancock county. He is one of the prominent lawyers of the State, and has always been actively identified with the Republican party. In 1892 he was a delegate to the Republican national convention that nominated Benjamin Harrison for president. In 1896 he was a presidential elector at large. In 1902 he was nominated for the office of attorney general of Indiana and re-nominated in 1904, being elected both times.

Everybody will admit that on the whole the great combinations have done much to contribute to the growth and development of the country, but at the same time they have had enough human nature in them to abuse their privileges. The present movement which is attracting so much attention is an attempt to put a stop to these abuses and not necessarily to destroy the combinations themselves. This movement has grown out of the feeling and opinions of the millions on this subject and it will continue in spite of all the powers in opposition. The managers may as well make up their minds at once to look upon this as a settled fact, and the sooner they do so the better for all concerned.

### Had Tried Several Kinds

Another good word is spoken for Hargrove & Mullin's dyspepsia tablets by J. A. Craig, the first street grocer, Rushville, Ind.

Dear Sirs:

My wife has been subject to dyspepsia for a number of years and has tried various remedies, but never found anything so effective as Raymond Dyspepsia Tablets; they relieve almost instantly and prevent attacks if taken before hand.

Yours truly

J. A. CRAIG.

### A HOPEFUL OUTLOOK

Estate Commission Expects to Successfully Combat Consumption.

Indianapolis, September 5.—Members of the state commission in charge of the selection of a site for the tuberculosis hospital have returned from an Eastern trip, where eleven such institutions had good and bad points, according to the doctors who made the trip, and after visiting them they are more firmly fixed in their belief than ever that Indiana can have a model institution, and one that will do a very great deal of good. There is everything in Indiana, the commissioners believe, that is necessary for fighting the disease successfully. Indiana, they say, has sites as good as any of those visited during the trip. The climate is one that is favorable, and they feel certain that the disease can be treated properly. One thing the commissioners say is very necessary, and it will be a big factor in selecting the site, and that is water supply and the opportunities for disposal of sewage. The water supply will be very carefully considered in making the selection.

When the Democrats organize next year for the presidential campaign there is reason to believe, so say the party workers in Marion county, that the state organization will be the organization of the majority of the party workers. There is, they say, every indication that the will of the majority is to be considered in the selection of the various committee chairmen and that there will be an effort to form an organization that will bring the party back to its old-time unity and power. A candidate for one of the positions recently criticised the party for its internal warfare. The criticism has caused considerable comment. It has made the party leaders sit up and take notice, and it has aroused even more interest among the rank and file. The voters are taking considerable interest in the district chairmanship fight, and it is likely that the leaders will respect their wishes. "The time has come," remarked one Democrat who has played a prominent part in the doings of the party in Marion county, "when the old system will be done away with. Just as there has been a general advance in the attitude of the people all over the country in regard to political matters in general, there has been an advance in regard to the party idea. The result is that people will demand a voice in party organization, and they will get it. I think this time has come in our own party in Indiana, and I expect to see a very decided change in party affairs when the next campaign opens."

A question in regard to a law passed at the last session of the legislature has been brought to the attention of the state officials. The law is one relating to corporations in general and allows certain increases in amount of capital stock. The law allows them to increase the stock without paying up all or any of the increase. Under this law some of the state banks have attempted to increase their capital stock. Fred Sims, secretary of state, and formerly a banker, as soon as these began to come in, turned the matter over to the attorney general for an opinion. The attorney general has investigated the matter and given an opinion saying that the act of 1881 still applies to banks, and that they cannot make the increase without paying up the stock. The act of 1881 specifies that if banks make an increase it must be fully paid up. The attorney general held that the act of 1881 was specific in regard to banks, and that it was not, therefore, superseded by the act of 1907, which is a general corporation law.

Charles W. Miller of Goshen has made a statement in regard to his candidacy for the Republican nomination for governor, and Indianapolis politicians have been discussing it pretty freely. "In seeking the nomination for the important office of governor I want it distinctly understood that I will not be the candidate of any man, machine or faction," said Mr. Miller. "I want the support of all Republicans who believe that I am qualified to fill this position."

The steam and interurban roads entering Indianapolis are making unusual preparations to handle the crowds to the state fair, which opens next Monday. It is believed that the attendance next week will be from 50,000 to 60,000 larger than a year ago, when over 150,000 people saw the exposition.

## POLICE SKEPTICAL

Cleveland Authorities Do Not Accept Burglar Theory In Phillips Case.

### WIDOW NOW IN CUSTODY

Pending Further Investigation of Mysterious Murder Mrs. Phillips Is Under Surveillance.

It Is Believed She Can Give Facts Surrounding Case That Do Not Appear at This Time.

Cleveland, Ohio, Sept. 5.—Developments in the investigation into the death of John J. Phillips, coal operator, broker, banker and clubman, came thick and fast yesterday and took a sensational turn later in the afternoon when Mrs. Phillips, widow of the deceased, was taken into custody by Chief of Police Stamberger of East Cleveland. Mrs. Phillips has been in a highly nervous state since the tragedy early Monday morning, after which announcement was made that her husband had been shot and mortally wounded by a burglar. Yesterday afternoon she collapsed and was not able to attend the funeral. It was shortly following this that Chief Stamberger of East Cleveland announced that after a conference with Deputy Coroner Houck, Assistant Prosecutor Mooney and others, he had taken the widow into custody and that four deputies would guard her in her home till she recovered sufficiently to be taken before a justice of the peace.

The police are reticent in the case, and whether they really believe Mrs. Phillips culpable in the murder or whether they merely believe that she can give facts concerning the tragedy which would solve the mystery surrounding it does not appear at this time.

At the inquest Dr. C. T. Richardson, the first witness, testified he had not been summoned until 4 a. m., more than three hours after Phillips was shot. He had been called by telephone. Mrs. Phillips admitted him to the house. She exclaimed: "Oh, doctor, something dreadful has happened. Mr. Phillips has been shot by a burglar."

He found the wounded man in bed. He called Dr. Rhodes. After they reached the house Phillips asked them to leave the bedroom a minute, as he wished to talk with his wife. Husband and wife were together alone for perhaps two minutes. He said there was a trace of blood on the stairway. The bed in which Phillips was found was much stained by blood. When the physicians reached Phillips they realized immediately, Dr. Richardson said, that he could live but a short time. He had told them both he wanted as little notoriety as possible connected with the affair.

While the funeral arrangements were in progress in the Phillips home the police ransacked the house in search for the revolver or other evidence in connection with the case, but as far as is known no revolver was found.

Phillips's secretary reiterated his belief that with the life insurance policies left by him the estate would pay all of Phillips's debts and possibly leave something for the family. The police, however, have so far not been found.

Late last night Chief of Police Stamberger made public a warrant charging Mrs. Phillips with the murder of her husband. The warrant was issued on an affidavit made by Stamberger and charges second degree murder. Physicians attending Mrs. Phillips say her condition is serious.

### PRESIDENT OUT OF IT

Will Take No Further Action Looking Toward Joint Statehood.

Phoenix, Ariz., Sept. 5.—The following letter was given out today from the office of Governor Kibbey:

"Oyster Bay, L. I., August 31.—My Dear Governor Kibbey—Secretary Garfield has been to see me and has reported to me in full the condition of affairs as he found them in Arizona and New Mexico and especially the attitude of the people of each territory toward the question of joint statehood. His report makes it evident to me, as I was already prepared to believe, that the convictions of the people are settled and will not change. Under these circumstances, I shall take no further action looking toward joint statehood for the two territories. You are at liberty to publish this letter.

Sincerely yours,  
"THEODORE ROOSEVELT."

Couldn't Endure Disappointment.  
Danville, Ill., Sept. 5.—Marie Thompson, nineteen years old, daughter of Marion Thompson, a farmer living near Kokomo, Ind., took her own life here by swallowing a large quantity of carbolic acid. She declared a short time before she took the acid that a young man had "turned her down," and that she did not care to live longer. "Tom wouldn't come down to see me," she told a friend over the phone. Then she went to her room and took the acid, dying a short time later.

### STRIKERS USE TORCHES

The Situation at Antwerp Daily Becoming More Menacing.

Antwerp, Sept. 5.—Thanks to the presence on the street of the militia, last evening passed in comparative quiet. The only incident was the setting on fire by the strikers, with the use of petroleum, of another lumber yard. The lumber, covering 3,000 square yards, blazed furiously in spite of the efforts of the firemen, reinforced by troops, to extinguish the flames.

Officers of the militia declared that the strikers were in a most dangerous temper, as free liquor is being distributed to them in the saloons. The strikers set fire to two other warehouses shortly after midnight, and in spite of the assistance rendered by the military, the fire spread, entailing damage estimated at \$800,000.

M. Hubert, minister of labor, called on the burgo-master of Antwerp and told him the strikers would return to work on the usual terms of the Federation of Labor, if the federation would consent to arbitration. The minister hopes that this proposal will shortly bring the strike to an end.

### Halford Reaches Age Limit.

Washington, Sept. 5.—Lieutenant Colonel Elijah W. Halford, pay department, U. S. A., has retired, having reached the statutory age of sixty-four years. Colonel Halford is one of the most widely known officers in the pay corps in the army. He was private secretary to President Harrison from 1889 to 1893. He was for many years editor of the Indianapolis Journal.

## WHY IT WAS DONE

Attorney General Bonaparte Takes the Public Into His Confidence.

### THAT IMMUNITY BATH

By Which the Alton Has Profited Was Administered After Due Consideration, He Says.

A Hint Is Given, However, That This May Be Offset by Additional Evidence.

Lenox, Mass., Sept. 5.—Attorney General Charles J. Bonaparte has issued a statement regarding the Standard Oil case in the Illinois court. The attorney general's statement is as follows:

"On August 14 Judge Landis asked, in substance, that the department of justice consider portions of the transcript of testimony in the case of the United States against the Standard Oil Company of Indiana in order to determine whether the Chicago & Alton Railroad company, its officers and employees, were entitled to the benefits of an agreement assuring it and them of immunity against criminal prosecution in connection with the granting of certain rebates to the Standard Oil company.

"The department, in compliance with the desire of Judge Landis, examined the above-mentioned records and carefully investigated the entire subject, and as a result of such investigation the attorney general on Aug. 29 wrote Edwin W. Sims, United States attorney at Chicago, informing him in substance that the agreement was shown to have been made in June or July, 1906, by C. B. Morrison, Mr. Sims's predecessor in office; that Mr. Morrison's action appears to have been duly authorized at the time by the department; that in the opinion of the department the arrangement had greatly facilitated the indictment and conviction of the Standard Oil company, and that while certain portions of the evidence might be fairly open to unfavorable comment, the department regarded the government as bound in good faith and also as a matter of public policy, to give effect to the agreement.

"Mr. Sims was instructed to read this letter when the grand jury reconvened on Sept. 3, and to take such further action to the foregoing end as might seem to the court and to himself appropriate in the premises.

"The department learns that Mr. Sims did not comply with these instructions by reason of his having had called to his attention very recently certain new and, in his judgment, material facts, which he thought should be submitted to the department for its further consideration before its conclusions should be finally announced. For this purpose he asked and was granted by the court a delay of three weeks. The department is not as yet advised as to what are the facts thus ascertained by Mr. Sims. It has great confidence in his sound judgment and devotion to duty, and it awaits his report before taking further action in the premises. Inasmuch, however, as the circumstances of the case may be liable to misconception, it is deemed proper to submit now the present statement to the public."

### MERELY A COINCIDENCE

Nothing Special in Meeting of Many Railway Presidents.

New York, Sept. 5.—The presence here of an unusually large number of railroad presidents from all over the country gave rise to reports in the financial district today that a conference of the executive heads of various railroads was being held to discuss the two-cent rate propositions and other questions affecting railroads now under public consideration.

These reports were denied by railroad officials, who stated that a large number of board meetings were scheduled to be held at this time and that the presidents of the roads were here to attend the meetings. It is most likely, however, that the heads of the railroads in the informal meetings will discuss the question of railroad legislation and the monetary situation, which as to some extent lessened new railroad building and improvements. Some of the railroad presidents who are here today are: A. B. Stickney of the Chicago Great Western; Edward P. Ripley of the Atchison, Topeka & Santa Fe; Albert J. Earling of the Chicago, Milwaukee & St. Paul; James J. Harahan of the Illinois Central, and James J. Hill of the Great Northern.

#### THE "BLACK POPE" COMING

Father Wernz, Head of Jesuit Order, Will Visit America.

Rome, Sept. 5.—America is soon to be visited by the "Black Pope," as the general of the Jesuit order is called. It is generally conceded in Rome that he is about to start on a tour of inspection of the houses of his order in America. Father Wernz, a German by birth, is the successor of Father Martin, who died a few months ago. After his accession he

FATHER WERNZ

set out to visit all the houses of his order in Italy, and he is at present in Venice.

Before leaving Rome he had an interview with the pope, and it is said he has received the papal permission for a tour of the world to visit the hundreds of institutions of his order. In New York he will make his headquarters at the St. Francis college, but his business of inspection will not permit him to remain long in the American metropolis. His place of residence in America will probably be the Jesuit university at St. Louis, which is considered by the order their most important establishment in the United States. It is probable that Father Wernz will travel as far as San Francisco, owing to the recent construction of St. Ignatius' college, which is now being rebuilt with the assistance of the order. His stay in America will be of several months' duration.

#### The Indictment Served.

Boise, Ida., Sept. 5.—The indictment returned last April by the federal grand jury against Senator Wm. E. Borah and other prominent men, charging conspiracy to defraud the United States government, has been served on the defendants. The indictment charges that these persons entered into unlawful conspiracy in September, 1901, and various other times to secure by fraudulent entry timber lands in Boise county, Idaho. Senator Borah has been accorded the privilege of a separate trial.

#### Serious Loss to Village.

Fort Wayne, Ind., Sept. 5.—A fire caused by an explosion of dynamite broke out at 11 o'clock last night in the W. O. Sessline hardware store at Topeka, Lagrange county, and practically the entire business section of the town was wiped out. Among the buildings destroyed were the Sessline hardware store, the A. T. Gerby drug store, the Goering bakery and the Miller drug store. The loss is heavy.

I doubt if, when one comes to look at the matter seriously, the man ever chooses the wife at all or ever learns the art of it. I should be inclined to think that in most cases the wife chooses the man, which is perhaps for the best.—Tom Gallon in Grand Magazine.

### TROUBLE FEARED

Louisville Again Threatened With Fierce Labor Riots.

Louisville, Ky., Sept. 5.—Unless some sort of a miracle is brought forth, tomorrow morning will witness the inauguration of one of the bitterest labor struggles in the history of Louisville.

The ill-feeling between the Louisville Railway company and its employees, which was aggravated rather than settled by the strike of three months ago, will find vent in a contest which promises to be fiercer than the riotous one of last April.

A committee representing the union will confer with the company officials today, and tonight the men will hold an all-night meeting to vote on the report. Neither side offers any hope whatever of a compromise, and each is preparing for a test of strength. It is considered a certainty that the men will strike tomorrow morning at 6 o'clock and the company will immediately attempt the operation of its cars with nearly a thousand strike-breakers. A similar attempt last April with a much smaller force resulted in a number of riots. The city and county officials, however, declare that any disorder will be put down regardless of the cost.

#### INDICTED FOR FRAUD

Allegheny Politicians in Bad With the Civic League.

Pittsburg, Sept. 5.—A political sensation was caused here when it became known that the grand jury had indicted four prominent politicians of Allegheny City in connection with alleged tax receipt frauds in that city.

The men indicted are: Elliott Rogers, member of the state senate of Pennsylvania, and former common pleas judge of the Allegheny courts; Samuel Grenet, director of the department of safety of Allegheny; William Hogel, member of Allegheny council, and William Lamb, a leading Allegheny politician. There are separate indictments against each on the charge of misdemeanor, and a fifth indictment, charging them jointly with conspiracy to aid and abet a misdemeanor. In the indictments are allegations of conspiracy to procure false registration and fraudulent voting, and conspiracy to issue fraudulent tax receipts.

The charges, it is said, are based upon the November election of 1906, and are the outgrowth of a crusade waged by the Voters' Civic League of Allegheny. All of the accused went to the courthouse today and gave bail in the sum of \$2,000 each.

#### Fish Still Inquisitive.

New York, Sept. 5.—Directors of the Illinois Central railroad met yesterday to act on the business brought to a sudden close a week ago. At the offices of the company it was stated that no information regarding the meeting would be given out. It is said, however, that the resolution offered by Mr. Fish last week that brought on the clash between Fish and Harahan and which asked for certain information regarding changes in the company's methods of accounting was the subject of discussion. The resolutions were said to contain charges against the present management which Mr. Fish desired to have answered. It is understood that some answer will be prepared by the management and submitted to a meeting of the board of directors to be held next Wednesday.

#### Five Years for Glass.

## DIDN'T DAUNT HER

Elwood Girl Succeeds In Giving Burglar the Scare of His Life.

### COOL WITH A REVOLVER

When Bold Intruder Made His Way Up the Stairs Miss Giselsbach Calmly Opened Fire.

Though She Did Not Hit Her Man He Is Probably Still Running.

Elwood, Ind., Sept. 5.—Lida Giselsbach, a seventeen-year-old girl, gave a burglar the scare of his life last night. Miss Giselsbach was on an upper floor reading a book, when she heard footsteps in the hallway below. Stepping to her dresser, she obtained a revolver which she keeps handy for such emergencies and quickly turned out the light. In a few seconds the intruder started to ascend the stairway. She stood still until she could hear the fellow's deep breathing, caused from exertion, and she flashed on the electric light, at the same time leveling the gun at the man. He was within three feet of the girl, and he threw up his hands at her command.

In her excitement she pulled the trigger, but her aim was poor, and she missed the bulky form before her. This so frightened the man that he lost his equilibrium and tumbled over backward down the stairway, yelling like an Indian. The young lady regained her nerve and fired five shots at the man, but he scrambled to his feet in the hall and took to his heels. The girl did not faint, but called the police department and notified them of the occurrence. No trace of the marauder could be found.

#### TO TRANSMIT POWER

Electrical Company Will Save Cost of Fuel Transportation.

Indianapolis, Sept. 5.—Formal announcement is now made of the intention of Frank Fauvre and a number of associates to establish an extensive electrical power plant in the coal fields of Indiana and to transmit the electricity to Indianapolis and other points of consumption. The proposed company will be formed shortly, with capital stock of \$1,000,000. A bond issue of \$5,000,000 is contemplated.

In order to have a ready market for the sale of the power developed at the new plant, which will be established near Seelyville, the company has acquired the property of the People's Light and Heat company. The property includes a franchise covering the entire city of Indianapolis, running for twenty-five years from 1905.

It is pointed out that the new plant established in the coal fields will have many advantages over one erected at any other point. By avoiding the loading and unloading of coal, high freight rates, high insurance, high city taxes and other expenses, much saving may be made, it is explained. The promoters insist that it is more practical and economical to burn the coal at the mine mouth and send the power over electric wires than it is to ship the soot-and-smoke-producing coal over long circuitous railroads that are subject to all kinds of delays, and then to burn the coal in wasteful furnaces. The promoters declare that their undertaking is not an experimental one, but one in line with the latest and most improved methods of producing electricity, and one endorsed by the leading mechanical and electrical engineers of the country. The line from the power station to Indianapolis will approximate 100 miles in length and will pass through a thickly populated district having a number of towns and cities which will become customers of the new company. In time it is hoped to transmit power from the plant to Vincennes, Evansville, Louisville and other cities.

The company has acquired 5,000 acres of coal land which contains four veins of workable coal. Experts have pronounced the quality as comparable with the best coal in Indiana and Illinois.

#### Shot Alleged Wife Beater.

Evansville, Ind., Sept. 5.—Fred Lamping and wife occupy rooms above the saloon owned by Warren Dent, and last night Dent was aroused by screams of the woman, and he rushed to the upper floor, revolver in hand, where Lamping was said to be beating his wife. Lamping met him with a pitcher, and, in backing out of danger, Dent's weapon was discharged, the bullet striking Lamping in the breast, to his very serious injury. Dent surrendered to the police.

#### Attacked Father With Razor.

Petersburg, Ind., Sept. 5.—Luther Cook of Winslow, this county, went to Somerville, where he drank to excess. While returning home he stopped at the residence of George Wiggs, his step-father, and after entering the house and finding Wiggs asleep, he attacked him with a razor, cutting him in several places. Wiggs finally got hold of a shotgun, and he would have shot Cook, but was deterred by a brother. Cook has threatened to kill Wiggs on several occasions.

Bullish advices from Europe caused a strong wheat market at Chicago.

## EVERY DAY IS A NEW BEGINNING

Then why not begin today by putting all your small bills into one, having then only one place to pay, also making your payments smaller than you are now paying. If you need some money in order to do this, let us advance it to you as we have assisted thousands of others this way. Why not you?

All that is necessary to obtain the amount needed is to own household goods, pianos, horses, wagons, etc. We have our own original fifty week plan which gives you fifty weeks in which to pay back your loan.

60c is a weekly payment on a \$25 loan.  
\$1.20 is a weekly payment on a \$50 loan.  
\$1.80 is a weekly payment on a \$75 loan.  
\$2.40 is a weekly payment on a \$100 loan.  
Other amounts in proportion.

If in need of money fill out the blank and mail to us, our agent will be in Rushville every Tuesday and will call on you.

When you call for Cacti Soap, get it! Don't let any dealer offer a substitute "just as good" brand. To be sure, soap is soap, but then Benedict Arnold was as much flesh and blood as Geo. Washington.

There is nothing that can compare favorably with Cacti Soap for the toilet, bath and shampoo. It is a clean soap, made in a clean factory, no greases or fat in it.
